

# GX-SERIES SCARA ROBOTS THE NEW CLASS

With high-power-density Epson's GX Series builds upon more than 40 years of expertise to deliver next-level performance and flexibility. Engineered to meet your unique automation needs, it offers multiple arm configurations and high throughput with large payloads to accomplish the most demanding tasks with leading-edge precision.

- + Payloads from more than 8lbs to 44lbs
- + Mounting flexibility – table, ceiling, wall
- + Faster cycle times with higher acceleration than previous models
- + Safety Rated – with proper risk assessments, can allow humans and robots to interact without a safety fence

## Series Models

### GX4:

- **Payload:** 4kg
- **Reach:** 250mm/300mm/350mm
- **Configurations:** Standard, Electrostatic Discharge (ESD), Cleanroom (ISO3) and ESD
